Job Posting: October 29, 2019

JOB POSTING: Manufacturing Process Technician

Who are we?

At Southmedic, we are proud to employ passionate and innovative people who believe in finding a better way. We manufacture and distribute medical devices to the global healthcare market, with a focus on providing high-quality products and services that enhance the quality of patient care. Each member of Southmedic contributes towards making a positive difference in the quality of life for people in over 80 countries.

What do we value?

Our core values guide our organization's success:

- We foster an **open-minded culture**, where we promote **diversity and inclusion** amongst our workforce.
- We recognize the **commitment** and **loyalty** of all employees, as they are the most vital component of our organization.
- We hold **accountability** and **integrity** in the highest regards within all functions of our organization.

What is role of the Manufacturing Process Technician?

As a Manufacturing Process Technician, you will be responsible for supporting the production floor by root causing process issues that affect production efficiencies. You will champion process improvements and practices that enable optimum production output, cost & scrap reductions, and quality improvements.

How can you be successful within the Manufacturing Process Technician role?

- Understand the importance of developing and maintaining cohesive team relationships
- Support your Southmedic team by achieving and exceeding organizational goals
- Demonstrate commitment through perseverance, punctuality, and determination to always find a better way
- Driven to achieve an effective work environment through efficient multi-tasking and a strong focus to detail
- Possess a technical diploma in engineering, or at minimum, experience in production manufacturing and automation.
- Experienced with basic Solidworks understanding and Microsoft software

How can I grow at Southmedic?

Through development opportunities, employees can help build a career path to achieve their own personal aspirations. We are focused on the strengthening of our workforce through the internal growth and advancement of all team members at Southmedic. To help assist our employees in reaching their full potential, we encourage continuous learning through professional education, on the job training, and co-op/apprenticeships.
